Program Description/Textbook or Print Instructional Material**Content**

Nuevas vistas Curso Uno is the second book in a three-year series. The series is designed for students who have grown up with Spanish as a home language as well as for advanced English-speaking students of Spanish. This first book of the series begins in the present with the first collection's theme of *Así somos* (refer to the Contents in the Student Edition). Thematically, the program takes students from the present, to the past, to the future, the unknowns of mystery and love, and advanced literature. This progression of reading topics corresponds to the grammatical progression of verb tenses: present, past, future, and subjunctive. Each collection includes two readings: one on-level reading and one challenge reading. Supporting all of the Student Edition content is the Teacher's Resource Binder. It includes suggestions on in-class activities to apply and reinforce structures, vocabulary, culture, and reading and writing skills. The Binder also includes research and project activities that suit students' strengths and needs.

Student Experiences

Nuevas vistas encourages students to actively learn Spanish and to understand culture. The Video /DVD Program, Audio CDs, and Online activities bring the language and culture to life for students through diverse, interactive technology. In the Student Edition, each collection features reading from different parts of the Spanish-speaking world. The *Crea significados* feature follows each reading and often requires students to draw on their experiences to give meaning to what they read. The *Nota cultural* feature in every chapter gives students insight into the culture and often asks them to compare the culture in the chapter with their own. The *Cultura y comparaciones* section includes short essays about the Spanish-speaking world. The section introduces students to topics such as music, dance, and muralism and leads students to investigate topics on their own and make a connection with what they already know.

Assessment

The Assessment Program measures student progress in reading and grammatical and communicative competence. The program consists of reading comprehension, vocabulary, grammar, and spelling quizzes for each reading; a comprehensive test with writing and culture; midterm and final exams; written and oral portfolio assessment forms with rubrics and progress reports; peer-editing rubrics; suggestions for portfolio assessment; and picture sequences based on collection readings to assess the students' ability to describe and to narrate. For AP preparation, the Advanced Placement Language Program and the Advanced Placement Literature Book both provide sample tests for practice in the standardized test format.

Organization

The text is organized in six collections. The main section consists of two readings with pre-reading, during reading, and post-reading activities. Mi pequeño diccionario, a brief glossary of vocabulary words, is used for pre-reading to understand the reading and for during reading to aid comprehension. The Vocabulario section introduces students to strategies that enhance their command of the language. Gramática targets areas where advanced Spanish speakers have difficulties. Practice in this section prepares students for Advanced Placement Language Exams. After learning grammar, students focus on correct spelling and recognition of sound-to-letter correspondence in the Ortografía section. Students use spelling skills in the Taller del escritor section they learn about the writing process and multiple writing styles, including persuasive, expository, and descriptive. Students see language in action by reading, viewing, or listening to the Contigo en la distancia Telenovela. Cultura y comparaciones brings culture into the classroom with varying topics. Repaso and Vocabulario esencial review collection material and allow students to v
